

Supra system —
Bringing efficiency to
real estate professionals and
peace of mind to home sellers

Two key options give agents choices —

Both eKEY® and XpressKEY™ make it easy for showing agents to access properties and listing agents to track activity at client properties. Automatic updates over a cellular network happen behind the scenes and there is no need to be in coverage when showing a listing. Real-time showing notices are sent just after a keybox is opened and provide listing agents timely information to help the selling process.

XpressKEY

The XpressKEY is a quick and easy electronic key solution. It is a sleek design in a compact size and fully featured:

- High quality backlit touchscreen
- Easy to use icon-based display
- Keyboxes open quickly with fast communication
- Integrates seamlessly with the entire Supra iBox family of keyboxes
- Built-in flashlight
- User changeable PIN
- Long-lasting user-replaceable battery
- Battery charges via universal micro-USB
- GPS coordinates assist with keybox assignment, end of showing notification, and locating a missing key

eKEY

With the eKEY app, you can open keyboxes with your smartphone or tablet. Everything you need is right at your fingertips. Bluetooth technology makes communication with the iBox BT LE effortless and no additional hardware is needed. In addition to basic keybox functionality the eKEY app can:

- Set custom access hours for a listing when placing it on the property, including separate hours for weekdays, Saturday, and Sunday
- Change keybox shackle codes
- Track keybox inventory by listing ID, address, or keybox number
- Save specific showing notes, listing highlights, and business card into keyboxes
- Optional eKEY Professional Service includes listing data, maps, buyer profiles, agent roster, showing activity details, and more

A reliable system for securing keys during the selling process

iBox BT LE has a large key container that can hold gate cards and keys. The shackle removes completely for easy handling when placing the iBox BT LE on the property.

iBox BT LE

- Easy access for authorized keyholders
- iBox BT LE works with any Supra key
- W 3.1", D 2.5", H 8.75", 2.5 lbs.
- Store 5 keys, or 2 gate cards with 2 keys
- Long-life lithium batteries that never need replacing
- Stores last 100 records of keybox access
- Customize access hours for weekdays, Saturdays, Sundays
- Keybox shackle code required to release shackle and custom program box

SupraWEB — The agent website for managing showings

- Upload listing photos to easily identify properties
- Send feedback about the market's reaction to a listing
- Email a customized showing report that includes listing agent's photo
- Easily communicate price adjustments or status changes to agents who have shown listings
- Schedule automated listing activity reports

Real-Time Information gives agents the added advantage

With the Supra system, all wireless keys automatically send a record of the showing activity right after the showing occurs. Information is most valuable when it's timely. Data ages quickly and becomes less valuable as hours or days pass. Old data equates to missed opportunities.

Real-time showing alerts enable agents to monitor activity at their listings, answer questions quickly, and keep home sellers informed. Real-time data gives agents the opportunity to:

- Know when showings begin and when they end
- Contact the buyer's agent while a showing is stillw fresh on their mind
- Provide additional details about a property or information on offers coming in on the property that may help a buyer make a decision more quickly
- Help sellers feel secure by communicating with them right away when someone has been in their home
- Monitor showing activity at vacant homes
- Improve communication

Agents win with Supra's real-time information!
