

# Data at the Door

## Become an instant expert on a property

Get seamless access to MLS data for a specific listing and real-time showing notes at the door when you use your Supra eKEY to open a keybox. With data at the door integrated into the eKEY app, there's no need to carry printouts or switch to other apps to find information during a showing. Everything you need is in one place with MLS highlights for that listing at your fingertips.

- View real-time data at the door, including listing data plus a listing photo and current property notes.
- Data displays automatically when keybox is opened.
- Listing agents can provide last-minute instructions to showing agent about the property — without visiting the property.
- Buyer's agents view the latest showing notes as they enter the property.
- Most recent data at the door is stored in eKEY app for easy reference later in the showing.

### Deliver real-time info to showings

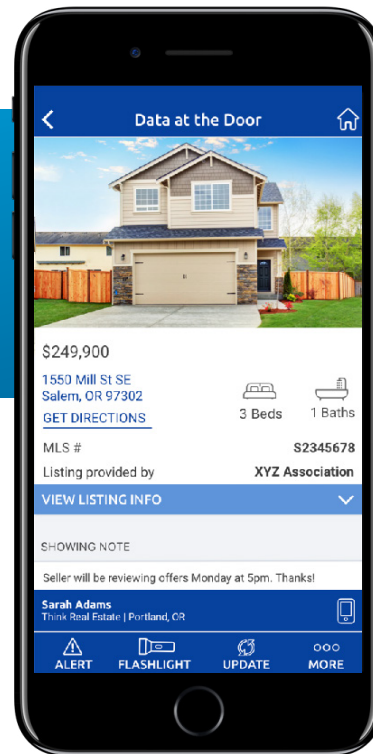

Listing agents can put current information about the listing into the hands of the buyer's agent when they most need it — when they are walking in the door.

- eKEY Basic subscribers use SupraWEB to create real-time showing notes.
- eKEY Professional subscribers use SupraWEB or the eKEY app to create real-time showing notes.
